

# ARCHI

A STEP FORWARD

INITIATIVE BY CÉDRIX AND CHRISTOLLE TSAMBANG / **CHORUS ARCHITECTURE**

THEME: DESIGNERS OF **THE FUTURE**

TALKING RESILIENCE

ARCHI-TALK IS PART OF THE SAVE BY DESIGN CONCEPT

## THE OBJECTIVES

- **Talking about or with architects, designers, artists, social experts, politic leaders, entrepreneurs, researchers, and scientist of the future of Design.**
- **Discussing about practices, philosophies, research and design methodologies**
- **The influence of Art, heritage and culture in sustainable development**

Archi-Talk's objective is to encourage new voices, plurality in the composition of the inhabited space, and to help develop effective, unique and sustainable design approaches linked to both materiality and cultures and heritage. The main goal being to empower young architects in their social role and to help their work to innovate beyond trends and standards and to reconcile the art of building with technology and ecology while the world embraces the artificial intelligence.

*" Architecture should be more than craft, it must come back to become an academic discipline where unjustified repetition is not allowed, where community comes first, and this not by laws or regulations, but because global warming is an opportunity to reshape our present and future by getting out of industrial revolution boxes" **Cedrix TSAMBANG***

## TOPICS

### ➤ Role of architects

- What is architecture?
- How can we define design?
- How can designers help the communities?
- What can we bring to the world of sciences?
- What can culture and technology bring to Cities development?

### ➤ State of art in the design world

- New voices
- New practice, Activities around sustainability
- Fields of studies

### ➤ Education

- Schools
- Learning approaches
- Competitions (**Archi-Now**)
- Technologies (BIM, 3D printing, smart tools...)

ARCHI-NOW  
SUSTAINABILITY FIRST STEPPERS CONTEST- COPETITION BY CHORUS ARCHITECTURE AND PARTNERS

### ➤ The influence of politics

- Global organizations
- Local leaders
- Elected authorities
- Green initiatives
- CEO's

### ➤ Research and design methodologies

- New grounds (mars, moon, sea, desert), **Focus on Jacques Rogueries' Foundation**
- New fields (materials, systems, Smart technologies), **Focus on ASA**
- New technologies (AI, BIM, Data science), **Focus on BIM AFRICA**
- New design (culture and heritage), **Focus on CIPCA,**

## METHODOLOGY

- Online Discussions (Talks, interviews, presentations)
- Online and offline Conferences
- Competition creation
- Competition promotion
- Online and offline "Annual" events
- Awards
- Partnership promotion
- Incubation and preps
